The journal is covered in the Emerging Sources Citation Index (ESCI) Clarivate Analytics services.

Volume 47, No 4, 2019, pp. 659 – 924

CONTENTS

	PAGE
Goran D. Putnik, Luis Ferreira	659
<i>Guest Editorial - Industry 4.0: Models, Tools and Cyber-Physical Systems for Manufacturing</i>	
Goran D. Putnik, Luis Ferreira, Nuno Lopes, Zlata Putnik	663
<i>What is Cyber-Physical System: Definitions and Models Spectrum</i>	
Cátia Alves, Goran D. Putnik	675
<i>Cyber-Physical Production System (CPPS) Decision Making Duration Time Impact on Manufacturing System Performance</i>	
António AC Vieira, Hugo Veloso, Luís MS Dias, Guilherme AB Pereira, José A Oliveira, M Sameiro Carvalho, Manuel C Figueiredo	683
<i>Using Simulation to Model the Logistic Operations of a Company of the Cement Industry</i>	
Vladimir V. Tsyganov	691
<i>Adaptive identification of innovative production function of corporation</i>	
Filipe Alves, Maria Leonilde R. Varela, Ana Maria A. C. Rocha, Ana I. Pereira, Paulo Leitão	699
<i>A Human Centred Hybrid MAS and Meta-heuristics based System for Simultaneously Supporting Scheduling and Plant Layout Adjustment</i>	
A.K. Enaleev, V. Tsyganov	711
<i>Alignment of Cluster Complexity at Network Systems</i>	
Dario Antonelli, Giulia Bruno	723
<i>Dynamic Distribution of Assembly Tasks in a Collaborative Workcell of Humans and Robots</i>	
Jun Huang, Duc Truong Pham, Yongjing Wang, Chunqian Ji, Wenjun Xu, Quan Liu, Zude Zhou	731
<i>A Strategy for Human-Robot Collaboration in Taking Products Apart for Remanufacture</i>	
Jorge Oliveira e Sá, José Luís Pereira, João Cacho	739
<i>Internet of Things Evolution: A European Perspective</i>	
Nuno Lopes, Goran D. Putnik, Luís Ferreira, Bruno Costa	749
<i>Towards a High Performance Computing Scalable Implementation of Cyber Physical System</i>	
Luis Ferreirinha, Sara Baptista, Ângela Pereira, A.S. Santos, J. Bastos, A. M. Madureira, M. L. R. Varela	757
<i>An Industry 4.0 Oriented Tool for Supporting Dynamic Selection of Dispatching Rules based on Kano Model Satisfaction Scheduling</i>	
Pavel Kostenetskiy, Rustem Alkapov, Nikita Vetoshkin, Roman Chulkevich, Ilya Napolskikh, Ostap Poponin	765
<i>Real-Time System for Automatic Cold Strip Surface Defect Detection</i>	
Mário Leite, Telmo Pinto, Cláudio Alves	775
<i>A Real-time Optimization Algorithm for the Integrated Planning and Scheduling Problem Towards the Context of Industry 4.0</i>	
Alexander N. Sokolov, Ilya A. Pyatnitsky, Sergei K. Alabugin	782
<i>Applying Methods of Machine Learning in the Task of Intrusion Detection Based on the Analysis of Industrial Process State and ICS Networking</i>	

(Contents continued on inside back cover)

The publication of the Vol. 47, No 4 of this Journal was fully financially supported by the Ministry of Education and Science of the Republic of Serbia. This support is gratefully acknowledged.

Printed by:
"PLANETA print", Ruzveltova 10, 11000 Belgrade

Aims and Scope:

The journal FME Transactions publishes original papers (reviewing and contributed papers, and short communications) from all fields of Mechanical Engineering, which is, as a branch of Engineering, considered in the journal in its broadest possible sense. Thus, the articles are welcome from: Applied Mechanics, Fluids Engineering, Thermodynamics, Heat and Mass Transfer, Robotics, Material Science, Tribology, Combustion, Mechanical Design and Machine Dynamics, Productional, Industrial, Agricultural, Aerospace, Processing, Railway, Biomedical and Control Engineering, Mechanization, Hydro- and Thermo-power Systems, Internal Combustion Engines and Vehicle Dynamics, Energy Resources Technology, Military Technology, Naval Architecture, and Applied and Industrial Mathematics.

Theoretical, experimental and computational analyses of various problems of Mechanical Engineering are equally welcome and acceptable for publication. In addition, there will be published book reviews, announcements of symposia, and in special issues, proceedings of selected papers from symposia organized by the Faculty of Mechanical Engineering in Belgrade.

Reviewing papers will be published by invitation only. One volume consists of four numbers.

Instructions for Authors:

A FME Transaction manuscript should be written clearly and concisely in correct English, with assumptions clearly identified, with precise logic, with relevance to practice described, and with actual accomplishments of the work plainly stated and honestly appraised.

Normally, the length of a reviewing paper is up to 12 pages, the length of a contributed paper is up to 8 pages, while the length of a short communication should not exceed 4 pages. All papers are subject to a reviewing process. During the process the names of referees will be kept confidential to authors, and also the names of authors will remain anonymous to referees. As a rule the reviewing process should be accomplished in 2-3 months. Final acceptance of a paper for publication in the Journal is based on the decision of the Editorial Board.

Template for Manuscript:
